## About the ICEBERG project

35 public and private organisations from ten European countries take part in the ICEBERG project –acronym for Innovative Circular Economy Based solutions demonstrating the Efficient recovery of valuable material Resources from the Generation of representative End-of-Life building materials– funded by the European Union as part of the Horizon 2020 Research and Innovation Framework Programme (contract 869336). It aims to tackle the recycling and recovery of some of the most common construction and demolition waste (C&DW). The project will last for four years (2020-2024) and has a budget of €15,667,498, of which the European Union is providing €12,997,935.

## Last advances

**The Spanish Demolition Association has recognised the Master’s thesis on HSI technologies for sorting CDW with an award at its last annual meeting; the thesis was developed between GAIKER and the University of the Basque Country**

The researcher worked on her project at Gaiker – ICEBERG Member–, where she was able to study advances in recovering CDW materials using hyperspectral imaging techniques.

## Other European projects focused on a circular construction

### CityLoops

The CityLoops project has drawn up three handbooks on circular construction, biowaste and circular procurement to help cities replicate the results of its work.

European Demolition Association.

Toronto, on October 17th & 18th

## European Week for Waste Reduction (EWWR)

The European Week for Waste Reduction (EWWR) encourages all Europeans and not only to carry out awareness-raising actions about sustainable resource and waste management during a single week in November.

November 18 to 26

## WASCON 2023: 11th International Conference on the Environmental and Technical Implications of Construction with Alternative Materials

Hong Kong, on December 13 to 16

### Consortium Partners

ICEBERG consortium is a big team consisting of 35 partners, in direct relation to the scope and ambition of the project. The consortium consists of 14 Large Companies, 10 SMEs, 9 Research Organizations and 2 Public Bodies. Partners belong to 10 countries from the EU.
