Merry Christmas and Happy Circular New Year 2021

Interactive workshops on circular design

Which user requirements are important to consider when designing circular building products and buildings? This question is central in two workshops hosted by VITO and EPEA.

When: January 14, 2021
- 10:00-11:30 CET: circular product design
- 14:00-16:00 CET: circular building design

Location: Online, after registration you will receive a video conferencing link with the participation confirmation which will be sent between the 11th and 13th of January.
